

K-LOVE radio & other Christian radio is an important asset to our community. It promotes clean, positive, encouraging listening experience to our children, teens & adults in this stressful world today. So much of music today encourages sex, offensive language, disrespect, etc. K-LOVE & those like it has changed many lives for the better, offering positive testimony & interesting positive talk radio. I want my teen to grow up with a positive attitude not closed up in his or her room listening to music that puts them in a state of mind that puts them out of their mind! Granted, not all music stations are bad but why not force those stations that are off the air rather than clean, positive music & talk radio? K-LOVE & stations of the like just may actually help our communities. I hope that you will reconsider your decision to block signals that air K-LOVE & other stations of the like so we can keep them on the air. Thank You, Debbie
